PFF-Sharing UI

The screenshot displays a user interface for sharing stories. At the top, there's a header with the JantrikGPT logo, a "Social Hub" dropdown, and a user profile icon. Below the header is a large, colorful illustration of three children playing on a large blue pencil. A "CREATE NEW STORY" button is overlaid on the illustration. The main content area features a post by a user named "saleheen9". The post title is "Title: 'The Haunted Mansion'" and the section title is "Section 1: Introduction". The text describes the introduction of main characters and the setting for a ghost story. Below the text are two small images: one of a black eye-like character looking at an open book, and another of a green, glowing eye-like character also looking at an open book. At the bottom of the post are "SEE MORE.." and "VIEW PDF" buttons, and a timestamp "Posted on: Jul 14, 23, 8:20 AM".

Thank You

@ J A N T R I K
